Prayer Requests

Bangladesh

Bangladesh Partnership - Pray for our partners as they are trying to set up a media studio where they can prepare podcasts and set up an online Christian radio station. This can be an effective way of evangelism in a predominantly Muslim nation. Pray for the ten ongoing translation projects to get the New Testament into the heart languages of minority people groups. Also, pray for the newly elected government and that they will protect religious liberty. Lastly, pray for our partner churches in the North Bengal area of the country that are facing extreme persecution.

Brazil

Brazil Partnership - Pray for new church plants that were started this year in the states of Santa Catarina and Paraná by Cuban immigrants. Pray for the plans that the Jaboticabal FWB Church has to start a church in a neighboring town in the coming weeks. Pray that the Lord will provide a pastor for the mission work that was started ten years ago in the state of Alagoas, which is presently without a pastor.

Bulgaria

Tim & Lydia Awtrey - Last Sunday was Easter here in Bulgaria, and we had several new families in the church service. Pray that the message will be retained in their hearts and that they come back this Sunday with open ears.

Trif & Vanya Trifonov - Praise God for the new people who heard the Gospel in the week before Easter and for those who came to our Easter church service! Please pray that the seeds of faith we planted would yield fruit for the Kingdom!

Cuba

Cuba Partnership - Pray for our churches as they try to meet the needs of their communities at a very difficult economic time. Pray for the seminary's extension courses that continue to train leaders, even when the fuel shortage makes it difficult to get around.

Ecuador

Adam & Carol Duncan - THP is arriving on Friday, and they will be working at the Christian school we partner with to build an outdoor classroom. Pray for the Puka Urku community.

We have been working in this community for two and a half years through health care initiatives, and now we are collaborating with them to build a sanitary bathroom/latrine area between the two-room schoolhouse and the community meeting choza (hut). There is no ongoing evangelistic influence in Puka Urku. Continue to remember the Verde Cocha preaching point. We have started rebuilding the meeting place that was mostly eaten by termites and the jungle. Pray that God would send more workers.

France

Matt & Cristina Price - The St Nazaire Church will be hosting a marriage seminar with Dr. Neil Gilliland this weekend. Pray that this weekend will be an impactful time for all of the couples that will attend.

David & Myriam Reeves - Praise the Lord! Our neighbor came to church with us on Sunday to hear David preach. This family of six had never set foot in a protestant church before. Thank you for praying for their hearts. Keep praying that the Holy Spirit would move in mighty ways!

Shane & Joy (THP) - Please continue to pray with us as our team works to find creative ways to create opportunities to share the Good News of Jesus Christ in Southern France.

India

India Partnership - Praise the Lord for the seven people who were baptized in two different locations. Pray for Sindhu's father, who is critically ill and in the ICU. Sindhu is the leader of this partnership in India.

Friends of India - Thank the Lord for the large number who attended the 75th Conference in North India. Pray for the Volena Wilson Bible Institute In South India. Also, pray for Pastor Johnson, who has heart issues.

Ivory Coast

Ivory Coast Partnership - Praise the Lord for the National Women's Retreat attended by 300+ women in the city of Agnibilekrou last week. Praise the Lord that we continue to hear of more baptisms that were held in different churches during the Easter season. Fourteen church planters up north submitted the following report for January through March: Attendance was 6085, 39 baptisms were held, 137 new converts, and 92 churches.

Pakistan

Pakistan Partnership - Praise the Lord for the excellent opportunities the churches had in announcing the Good News during the Easter season. Praise the Lord for protection against attacks from the religious radicals.

Russia

Russia Partnership - We received a letter of gratitude from the partner Bible Institute in Chelyabinsk for the assistance in getting Arminian (FWB) literature translated into Russian thirty years ago. It has been very useful in training pastors and leaders, even today. Praise the Lord for how he has used and continues to use FWB in that country.

Samburu (Kenya)

Samburu Partnership - Praise the Lord for four people who were baptized last week!

Spain

Anthony & Lea Edgmon - We appreciate your prayers for Anthony as he shares God's Word with several young men this week. Two of them have drifted from their faith, and three are seeking to grow.

Uruguay

Uruguay Partnership - Pray that the Lord would raise up Uruguayan pastors. Opportunities are opening for starting new works in the country, but the laborers are few.
